

Botega pendant lamp

technical sheet

Fascinated by timeless shapes of industrial metal lamps, Enrico Zanolla wanted to honor them using a warmer and different material as the ceramic, crafted by Italian artisans, also including reference to metals like gold and copper. The lamp is composed by two elements, the bottom element is characterized by a sinuous and soft shape that convey light in an essential and elegant way, while the upper part hiding the wiring is designed in a more classic and lathed-like way. The lamp is available in black or white ceramic exterior with matching fabric cord. The interior can be chosen in a more traditional white ceramic finish, or in gold and copper metallic finish connecting the lamp with the industrial past to which Botega is inspired directly.

A surprise effect will appear turning on the bulb in the metallic finishes, concentric circles with different light intensity and colours are created thanks to light bounces, diffusion and reflections of surrounding space.

Design by:

Enrico Zanolla / 2014

Type:

Pendant lamp

Material:

Lampshade in ceramic with interior in gold, copper or white, cord in fabric matching lampshade colour, ceiling rose in white or black plastic

Cord length:

180cm

Bulb included:

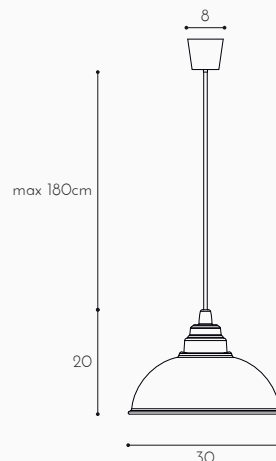

No

Cleaning instructions:
