

Bussulot, whose name means can in the language spoken in Friuli, is a ceramic container designed taking inspiration from an old aluminium can found on a dusty shelf in an old abandoned house.

Bussulot's shape is simple but distinguishable at the same time, combining past and present. Bussulot is characterized by two different materials like ceramic and cork, whereas the choice of colour range was fundamental to express a contemporary feel.

Bussulot can be used in a modern or country kitchen, placed on your desk or shelf to easily reorganize your space.
